EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows: This application is in condition for allowance except for the presence of claims 6-30 directed to an invention non-elected without traverse. Accordingly, claims 6-30 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: no prior art has been found to teach, disclose or fairly suggest the second recess in the elastomeric layer which crosses-over the first recess in the nonelastomeric layer and that the flexible membrane forms a ceiling of the first recess and is able to be actuated into the first recess to control fluid flow therein in response to a variation of pressure in the second recess in combination with all of the other limitations in claim 1. The examiner is relying on the applicants' arguments on page 10 of the last response. In addition, the closest prior art to Moles '799 does not disclose that the first recess in the nonelastomeric layer extends along a length within the substrate. This recess 12 is a circular recession and would not permit flow along the length of the nonelastomeric substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
